## Bio

I was born in '99 and for a while I've been enjoying moving pixels. I started getting into graphics through a monitor screen, thanks to internet I discovered how much **digital communication** could reach many people from different parts of the world.

Most of the time I need a mouse to work, in particular I enjoy **making animations**.

However I came upon a few graphic design aspects which I like to apply myself, such as **movie posters, book covers and fanzines**.

The serene environment is the one which I feel most comfortable, I can produce a lot by myself yet best ideas come along by collaborating.

## LANGUAGE SKILLS

2017 English: B1  
Certified by **British Council**

## INTERESTS

- Movies
- TV Shows
- Drawing
- Travelling
- Cycling
- Basketball
- Soccer
- Volleyball
